

WanderStay · Peer-to-Peer Boutique Travel Accommodations Marketplace

WanderStay is a peer-to-peer travel marketplace connecting travelers with unique local home stays and boutique accommodations.

Problem:

Traditional hotel chains lack local cultural experiences and are overpriced, while current home-sharing platforms face rising cleaning fees, inconsistent quality, and regulatory crackdowns in major travel destinations.

Solution:

WanderStay operates a curated peer-to-peer home accommodation marketplace. All listings are verified by local community ambassadors, with transparent pricing (zero hidden cleaning fees) and a smart insurance contract protecting hosts and guests automatically.

Business Model:

Two-sided marketplace model. WanderStay charges a 12% booking commission from guests and a 3% service fee from hosts on every booking.

Revenue Model:

Commission-based transaction model. With \$220 million in booking volume projected for Year 2, platform revenue reaches \$33 million. Additional revenue from WanderStay experiences and tour partnerships.

Target Market:

Millennial and Gen-Z travelers seeking authentic travel experiences in urban and coastal destinations. TAM of \$140 billion in boutique travel lodging.

Technology:

React and React Native marketplace apps. AI-powered search and dynamic pricing matching algorithms. Secure payments integration via Stripe. Automated host compliance checklist based on local municipal rules.

Unique Value Proposition:

WanderStay is the only home-sharing platform with 100% verified listings by local ambassadors, guaranteeing quality, and a strict no-hidden-fees booking policy.

Competitors:

Airbnb, Booking.com, Vrbo, Sonder, and traditional hotel booking sites.

Funding Required:

\$8 million seed round to expand host recruitment in 15 major European and US cities, obtain local operator licensing, and expand marketing campaigns to reach 300,000 active guests.

Market Traction:

Active pilot in Lisbon and Barcelona with 850 hosts and 14,000 completed bookings. Average guest rating of 4.85 stars. Positive unit economics achieved with 34% repeat guest bookings.
